Sharp Demand from Carriers and Elevator Men Causes Wheat to Advance.

December and May Both Close Higher-Corn Also Scores an Advance-Oats Steady-Provisions Slightly Higher.

MONEY, STOCKS AND BONDS,

A Much Better Tone to the Market, with Decided Gains Recorded at the Close. NEW YORK, Dec. 3.-Money on call was easy, ranging from 3 to 7 per cent., the last loan being made at 3, closing offered at 3. Prime mercantile paper, 512@712 per cent.

Sterling exchange quiet and barely steady at \$4.80 for sixty-day bills and \$4.8419 for demand.

The total sales of stocks to-day were 374,-952 shares, including the following: Atchison, 18,520; Delaware, Lackawanna & Western, 8,000; Denver, Texas & Fort Worth, 4,420; Louisville & Nashville, 12,-450; Missouri Pacific preferred, 19,500; Northern Pacific, 2,825; Pacific Mail, 3,750; Readng. 89,010; St. Paul, 28,785; Union Pacific.

The stock market was less active for the unlisted department, but there was a much better tone to the dealings throughout the greater portion of the day, and advances are in a decided majority among the final changes. The features of the trading today were a continuance of the foreign purchases, the heavy covering of "shorts" in the general list and the raids on the coal stocks and the trusts, the last having the look of a demonstration under cover of which to recoup "short" sales. The gures from London this morning were materially higher than last night's closing, and as there were plenty of buying orders in the market for both "long" and "short" account, the opening was made at advances over last evening's prices, extending to 's per cent. in the general list. while exceptional gains were made among the specialties. Tennessee Coal was up ! per cent; Sugar, 13, and Jersey Central 2,

These figures were placed too high, however, and a material reaction occurred in the early dealings, notwithstanding the demand for stocks, and Sugar lost all of its improvement, with something addition. The stocks of the regular list, however, were well maintained, and some marked advances were scored, Pacific Mail moving up over 1 per cent. on the ruzzor that the President's message would contain a clause in favor of increased compensation for carrying the mails. Louisville & Nashville, Missouri Pacific and Atchison were all quite strong, and at noon the market was fractionally better than the opening prices. The usual daily raid upon the coal stocks was then made, and the demand from the foreigners and the "shorts" having fallen away, there was a material impression made upon their prices in a very short time. The raid was accompanied by a rumor that the Coxe suit had been decided against the Lehigh Valley, though no confirmation of the report was had. Lackawanns and Reading were pressed for sale in large quantities, and the decline in the former extended to 3 per cent. The trusts suffered to a lesser ex-

tent, but the losses in them were material.

Another endeavor to cover by "shorts," in the last hour, resulted in a marked rally which extended to the entire list, and Sugar Refinery was especially prominent in the rise, reaching the best figures of the day. Missouri Pacific at that time was rather heavy, and lost a portion of the early improvement. The market finally closed only fairly active, and tirm to strong at the best prices or thereabouts. The preferred stock of the Great Northern railroad was traded in the unlisted department

to-day, selling at 89.

Railroad bonds were a shade more active to-day, the sales of all issues aggregating \$1,703,000, though the increase over yester-day was principally in the Kansas & Texas assues, the sixes contributing \$274,000, and the fives \$119,000, though the Manitoba fives furnished \$382,000. The Kansas & Texas issues were the strong feature of the day, the sixes rising 12s, to 715s, and the fives a fraction. Milwankee, Lake Shore & Western firsts lost 2, at 12112.

Government and State bonds have been dull and steady. Closing quotations were:

TRADING AT CHICAGO.

Brisk Advance in Wheat-Corn Also Higher, and Oats Steady.

CHICAGO, Dec. 3 .- There was a very fair demand for wheat and a stronger feeling existed, with prices showing an advance all round, and chiefly in December or cash wheat. December, which was 51 @51ge under May, was bid up to-day to within 4780 of the May price. The reason for this was a sharp demand from carriers and elevator men. Trading was largely in the way of buying December and selling May. The market opened 4c higher and prices of December advanced 5sc, while May advanced 120 se, receded slightly, and the closing was 7sc higher for December and 5sc higher for May than the closing figures yesterday. Cables were again of an encouraging tenor. India shipments last week show a large increase, being reported at 960,000 bushels, an increase of 520,000 bushels over the previous week. The export clearances were larger than for some days past, equal to 205,717 bushels of wheat. Receipts at Minne-apolis and Duluth aggregate 641 cars, sgainst 250 cars the same day last week. showing quite a respectable falling off. The news from outside domestic points was also quite strong. Minneapolis reported a good demand for cash wheat there, and there was a rumor that the aggregate stock in country elevators in the Northwest was only about 9,500,900 bushels, whereas 13,000,000 had been calcuated on. In corn a moderate business was transacted early, and the feeling prevail-ing was quite strong, but later the market became quiet and easier. The early trength was due to receipts falling short of expectations and to the poor grading of the same, but 15 per cent. being up to the speculative standard. The demand was confined mainly to December "shorts," but at 32c offerings became quite liberal, a prominent local trader selling quite freely. The wet weather here and in the Southin the session. The market opened a shade above the closing prices of yesterday, and was firm, especially for December, which advanced 12c, January selling up but 18@14c. Prices then declined 18@3sc, ruled firm, and final quotations were 14@3sc higher than yesterday. Onto were product that yesterday. terday. Oats were moderately active and easy early, due to free selling of May by a large operator, but later the trading in-ereased, and a firmer feeling prevailed. nents-Wheat, 14,400 bu; corn, 12,600 bu; oats, MINNEAPOLIS, Dec. 3.-Demand for sam of milling qualities was active and the higher grades mostly taken by Minneapolis millers, with a few orders filled for outside milling points. The milling demand kept prices above the point at which elevators could work, so that very little was taken for elevator purposes ex-cepting the low grades. The latter was dull and poor wheat did not seem to sympathize in the advance of regular No. Northern and above. In some cases it was not easy to sell poor qualities at what seemed to be satisfactory prices as compared with the good. Arrivals for the twenty-four hours were 381 car-loads. At a tea recently given my attention was caught by the beauty of the cloth that is at all times such an important adjunct to the success of a tea drinking. I found my hostess was responsible for this unique bit of handiwork, and at my request kindly gave me full directions how to make one. Java canvas was the material used, 1 yard 5% inches long and 1% yard in width. Unravel the border eight inches deep and knot. This gives you a very handsome fringe. Above this may be marked off squares into which you work with brillianttoned silks any graceful design that you may fancy. Of course, the same colors used in the embroidery must also be employed in knotting the fringe.—Philadelphia Inquirer.
